Automated Sales Tax Integration

Overview

Avalara reduces the hassle and complexity of tax compliance at every stage — no matter the industry or size of your business. Integrated with CFI Suite, Avalara eliminates ZIP-code-based tax inaccuracies and eradicates manual updates of tax rates and rules.

Avalara integrates with the AP module in CFI Suite to handle consumers use tax, and also offers fully integrated returns and certificate management. Once installed and configured, AvaTax takes over sales and use tax calculations for the entire quote-to-cash process.
